

Letter of Thanks To Placement.....

Tony Squires

What a year! What a place!

I'm just really humbled by the achievements this year, and that is totally down to the encouragement, prayer and accountability brought into my life by Wetherby Salvation Army and the people there. Without spending the year at Wetherby I know id be on a serious track of stale faith. I want to say thanks for dragging me out of my comfort zone, bringing me into a place where I see all the blessings God has provided this year.

I've changed this year and I am certain that the encouragement of everyone at Wetherby has made those changes possible. At the times where I've been picked up on my failings and responded badly, I now regret. I know that by holding my thoughts and feelings back has hindered me at times, and I know I have been praised for my transparency, but I just need to apologise for all the times when I've closed off from people.

I need to say thanks for all the opportunities that ive had this year to go deeper in my faith. There's no doubt id have not got the chance elsewhere, thank you.

My prayer for wetherby is that God will just push, pull, tug and prod people into the positions where they can help bring people to God by showing their faith in their words and actions.
